

2016 ASLM Satellite Session

How to reach the third “90” in West and Central Africa?

Current needs and situation in West and Central Africa, Experience and Lessons Learned from implementing partners and discussions around scale up strategies

Sunday, December 4th | 8.30am – 12.00pm
CTICC room location: 1.61-1.62

The current situation in HIV in West and Central Africa (WCA) differs greatly from that of other African regions. This seminar will present the main challenges in this region in achieving the third 90% of the ambitious 90-90-90 Global HIV strategy.

Experiences and recommendations to scale up in those countries will be discussed in the presence of

- Professor Marie-Claire Okomo, Ministry of Health, Yaoundé
- Mr Robert Matiru, UNITAID, Geneva
- Professor Christine Rouzioux, University Paris Descartes - ANRS, Paris
- Dr Vincent Habiyeberere, WHO, Geneva
- Mr. Divine Nzuobontane, CHAI, Yaoundé

TARGET AUDIENCE:

Decision makers among donors and government and WCA implementing partners in HIV.

THIS SATELLITE IS ORGANIZED BY
